In conjunction with the Products Visual Sound provides on the HCESC-CAT-19-06 Contract, we have been approved to offer Set-up and Installation. Visual Sound will include within it's proposal the equipment and support being offered based on the Customers needs.

Installation: Assembly, building, and integration of audiovisual equipment in the most efficient, effective, and highest quality of workmanship in order to meet and exceed specifications set by the Manufacturer and Statement of Work.

Project Support: Project Manager works with the Customer and all involved members of the Visual Sound team to assure the project meets and exceeds the Statement of Work agreed to from beginning to final completion and sign-off.

Engineering: - Our industry certified Engineers provide pre sales and post sales services. We design and build custom Audio Visual systems that encompass the functionality our customer has envisioned.

Programming: Control system design, software development, configuration, and integration for custom audio and video systems. Visual Sound's programmers will custom design Control Panels to operate multi-faceted systems with the touch of a button.

Fabrication: Perform in-house system equipment building, set-up, and system testing for proof of performance prior to implementation and installation on-site at Customer's location.

Commissioning: Verification of system performance after installation has been completed at Customer site to ensure the system is functioning according to Manufacturer, Industry, and Statement of Work standards.

Training: On-Line and On-Site Professional Development custom programs to improve Customer understanding of equipment, software, and system utilization.
