In conjunction with the equipment Visual Sound is providing on the Broadcast, AV, and Multimedia Contract, we also offer additional services. For such services, Visual Sound and the using Agency will negotiate the applicable services and prices at the time of order. Visual Sound will submit to the using Agency a quotation that will include the equipment and additional services being offered. These additional services are over and above the services already built into the equipment bid prices.

- **CAD Labor** – Technicians using computer technology to create, design, and draft technical/engineering drawings for Audio/Visual Systems.
- **Design/Build** - Project delivery method in which the Agency or owner contracts for a separate design phase and construction phase of a project. These are for specific projects on an as needed basis.
- **Digital Signage Content Management** – Create, deploy, and manage content for Digital Signage systems.
- **Engineering** - Design and implement systems, materials, structures, devices, and process objectives to meet customer application criterias. Support engineering research, resolve technical problems, build/set-up equipment, and perform quality control by implementing manufacturer product specification tests and report collect data.
- **Installation** – Perform in-house system and equipment install set-up for customer acceptance and system proof of performance prior to implementation and installation on-site.
- **Product & System Warranties** - Extended Warranty Programs available for purchased equipment and Integrated Audio/Visual Systems. Options include (but are not limited to): Labor, Parts, Priority Response Level (NMC, SMC, and MC), Solution Time, Telephone Support, Preventive Maintenance Programs, Loaner and Critical Spare Equipment.
- **Programming** - Plan, organize, design and manage software programs. Implementation of remote asset management software to control specific audiovisual systems.
- **Rental & Event Staging** – AudioVisual equipment rentals and a full array of production services from small meetings to large scale events including presentation, audio, lighting, staging, and creative services.
- **Service Technician** – Professionally trained and certified technicians available to troubleshoot repair and maintain Audio/Visual equipment or Integrated Systems. Both on-site or depot services are available.
- **Special Delivery** - Shipping options are available to supplement ground shipment when expedite services are needed. Options include same day, next day, 2-day, and 3-day air at an addition charge.
- **Training** – Industry qualified professionals will conduct formal or informative training classes on equipment or system utilization.
- **Videoconferencing Service** – Sales Consultation, System Design Engineering, and Support Services are provided for videoconferencing products.

Visual Sound has been awarded the designation of AV Provider of Excellence (APEX) from AVIXA by annually demonstrating their commitment to providing quality service to customers, upholding high standards, and advancing industry excellence.
